

Barrel Clamp

Barrel Clamps - A Barrel Clamp is really a mechanical or hydraulic attachment intended for a forklift. It can be used in order to squeeze the item you wish to move with the lift truck and is typically utilized for handling kegs, paper rolls and barrels. A few types of barrel clamp accessories likewise have a revolving function. Like for example, the revolving function permits a lift truck operator to be able to put in a vertically stored paper into the horizontal intake of a printing press.
