

Meritor Parts

Meritor Parts - Meritor is a leading international dealer which is proudly built on a one hundred year tradition of quality and service. They specialize in different integrated systems, modules and parts to original equipment makers and the aftermarket for the transportation and industrial sectors.

Meritor prides itself in the company's distinctive energy and believes that this energy contributes to their competitive advantage in the international operations. The company values their customers and would like to guarantee their success while anticipating their different needs. Meritor starts with a culture that values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred individuals, Meritor promotes collaboration and innovation among a team of knowledgeable experts.

Meritor strongly believes in only employing future focused staff. These top-caliber workers could rapidly adapt to changing environments and freely exhibit the level of commitment and performance necessary to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the business. In return, Meritor offers all of their employees different possibilities for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes drivelines, axles, suspension and braking systems meant for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is likewise responsible for supporting the needs of all their worldwide engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group which is committed to ensuring optimum growth at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 countries.

They have their supplier network which is particularly located in order to support the growth of the business. Every regional team has internationally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in every aspect of the company. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is also included transactional Green Belts who make use of Six Sigma tools to business techniques and implement lean techniques.
